DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 3, 5, 6, 8-31 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter.

Claim 2 recites, inter alia, a subscriber-specific communications device for use in conjunction with a portable host, a removable module, at least one communication subsystem external to the subscriber-specific communication device, and at least one subscriber service available via the at least one external communication subsystem, comprising "host-interconnect adapted to couple with the portable host, I/O adapter circuitry adapted to couple to the external communications subsystem" and wherein "the subscriber services information contained in the removable module is used to determine capabilities of the portable host with respect to use of the subscriber service available via the external communications subsystem coupled to the I/O adapter circuitry". Prior art of record do not teach or suggest, either alone or in combination, the aforementioned limitation, nor would it be obvious to modify those references to include such limitation. Examiner notes that applicant's arguments are persuasive regarding the above limitations.
